*Each academic year begins in the Fall semester and ends with the completion of the Summer II semester in August of the following year

**Includes students who entered different Clinical Psychology Ph.D. programs prior to transferring to the UNC Clinical Psychology Ph.D. Program. The total number of years to completion for these students includes the years that they each student spent at their previous doctoral institutions.

Doctoral students may enter the program with credit for prior graduate work, but will only be approved for up to 6 transfer credit hours that can be applied towards their Master's degree. We evaluate transfer credit for students entering with prior graduate coursework on an individual basis once they have been admitted to the program, but typically tell our applicants to assume that they will receive no credit for prior coursework and will still need to spend 4-5 years in the program before graduating with their doctoral degrees.

Program Costs
